Our most Iconic Safes
ILUX DESIGN

"Ilux Design is the perfect combination of quality, functionality and security.
Fully customizable from the inside to the outside, to satisfy the most demanding
needs of our customers"

Design and Innovation

ILUX DESIGN

"Our Olle safes are professionally assembled using the best raw materials. Each component is designed, developed and manufactured according to the strictest standards."

Exclusivity

"We know that every detail makes us unique, that is why our safes are unique in each detail"

AR-5E
Safe with a Gold finish on the outside and
Arezzo on the inside furniture.

Security
ILUX DESIGN

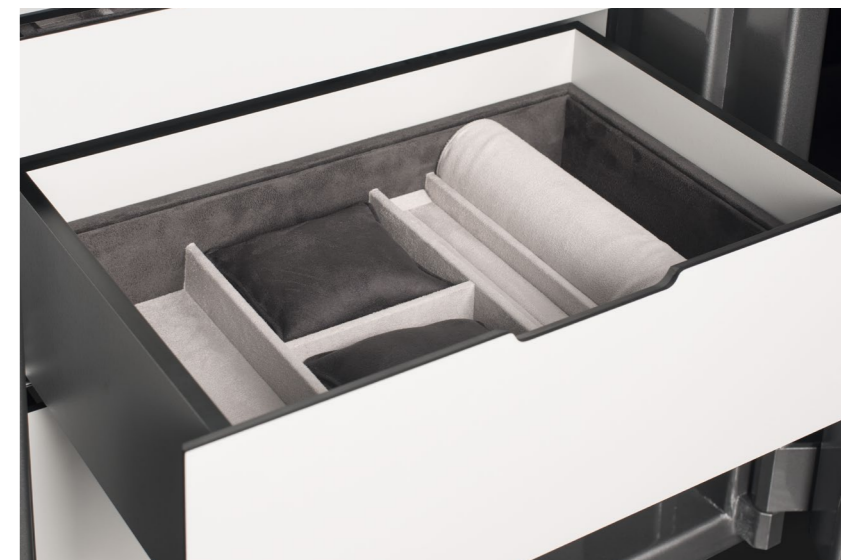

The security of our safes is as important, for us, as its beauty. That is why our products meet the most demanding requirements of the UNE E-1143-1 standard for grades III and IV.

AR-7E

Safe with a Special Grey finish on the outside and White on the inside furniture.

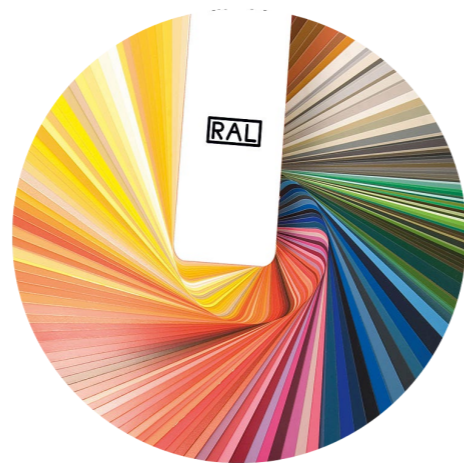

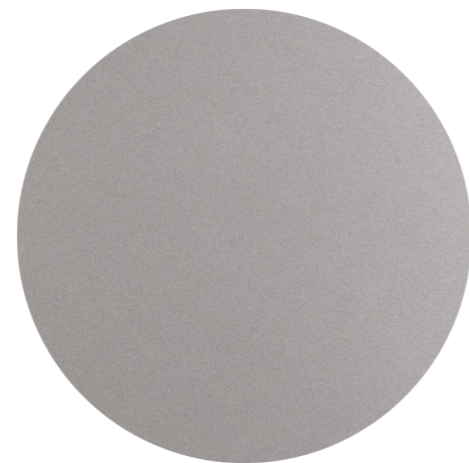

External Finish

CUSTOMIZABLE EXTERNAL COLOR

Our safes are subject to a various painting process stages to obtain the high glossy external finish. Special colors specially developed for Ilux Series: Gold and Iron Grey. It can also be customized using other RAL colors.

CHROME FINISHES

Chrome finishes on handles, plates, hinges, bolts, ... Chrome-Gold or Silver.

0023 Lamar

0102 Maple

0125 Natural Oak

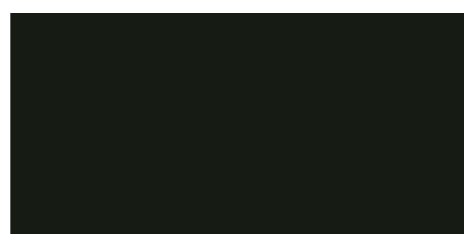

0048 Cognac Oak

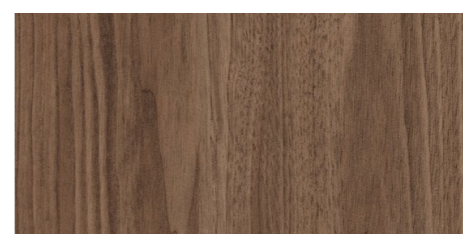

0074 Pastel Grey

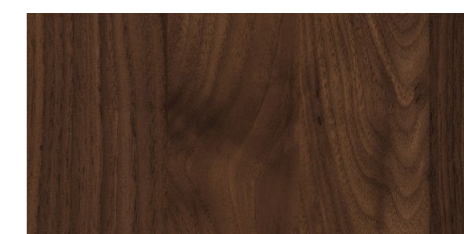

0077 Charcoal

0080 Black

0260 Arezzo

0265 Delano

Grades of Security

GRADE III

Ilux design has a wide range of sizes and security grades. With the option of choosing between 6 different safes sizes and two security grades, grades III and IV according to UNE EN-1143-1 standard. The safe construction is made up of various materials and armoring (up to 10 different ones) looking for the same wall thickness and the maximum safe lightness. The door is protected by 12 rotating bolts. Thanks to an innovative re-blocking system, exclusively designed by Olle, the 12 rotating bolts that protect the door, become completely blocked when forcing the safe to be opened.

GRADE IV

UNE EN-1143-1 Grade III

Electronic combination with the possibility of an opening delay code.
 Certifications: VdS Class 2 / EN 1300 Class B.

				
AR-2E	500	450	450	210*
AR-3E	650	550	550	340*
AR-4E	800	550	550	400*
